

# RN-BSN

## END OF PROGRAM STUDENT LEARNING OUTCOMES

The RN to BSN Program at Campbellsville University has End of Program Student Learning Outcomes (EPSLO) that all students will have accomplished by the time of graduation. These are included below as well as in the student handbook. These EPSLOs are integrated into each course through the course and learning objectives.

### End of Program Student Learning Outcomes

Upon graduation from the Campbellsville University RN to BSN Program, the student will:

1. Demonstrate the professional standards of moral, ethical, and legal conduct.
2. Provide knowledgeable, holistic nursing care to patients, families, and communities across the lifespan.
3. Promote collaborative care through intradisciplinary and interdisciplinary relationships in the workplace and in the community to improve patient health outcomes.
4. Distinguish the health care issues and health care needs of diverse cultures and populations, including those who are socially diverse.
5. Develop an individualized plan to foster professional growth and development that includes evidence-based practice, lifelong learning, and professional engagement.
6. Interpret the impact of healthcare policy, finance and regulatory environments, including local, state, national and global healthcare trends, on nursing practice, health promotion and disease prevention.
7. Develop a plan of care with measurable outcomes related to behavioral change techniques to promote health and manage illness.
8. Defend critical thinking decisions using scholarly inquiry and discussion with colleagues and leaders in the nursing profession.
