

RN to BSN

End of Program Student Learning Outcomes

The RN to BSN Program at Campbellsville University has End of Program Student Learning Outcomes (EPSLO) that all students will have accomplished by the time of graduation. These are included below as well as in the student handbook. These EPSLOs are integrated into each course through the course and learning objectives.

Upon graduation from the Campbellsville University RN to BSN Program, the student will:

- 1.** Demonstrate the professional standards of moral, ethical, and legal conduct.
- 2.** Provide knowledgeable, safe, holistic care to patients, families, and communities across the lifespan.
- 3.** Promote collaborative care through interprofessional relationships and change processes to improve quality health outcomes.
- 4.** Distinguish the health care issues and social determinants of health of diverse cultures and populations.
- 5.** Develop an individualized plan to foster professional growth and development, including evidence-based practice, lifelong learning, professional engagement, and personal reflection.
- 6.** Interpret the impact of healthcare policy, finance, and regulatory environments, including local, state, national, and global healthcare trends, on nursing practice, health promotion, and disease prevention.
- 7.** Defend critical thinking decisions using scholarly inquiry and discussion with colleagues and leaders in the nursing profession.
- 8.** Integrate Christian servant leadership concepts into professional nursing identity.
- 9.** Integrate the responsible use of informatics, communication technologies, and artificial intelligence practices into ethical, safe, and quality healthcare.
